BEHIND THE NAME

ProTech takes trucks seriously. From the first step up to your truck, to the mirror-polished fender and the bottom drawer of your storage module, ProTech builds it with plenty of American sweat and polish—and then we stand behind it with pride. You can too. 'Cause when your truck is your bread and butter, you better be able to trust every inch of metal that you add to it.

ProTech designs and builds durable products going on big rigs that help operators maximize efficiency and access. Product groups include cab racks, enclosures, chain hangers, steel and aluminum toolboxes, fenders and mounting brackets.

It's the details that count. Standard features such as locking T-handles on cabinets. Continuous weld seams. Heavy sheet metal thicknesses. And hundreds of standard configurations from which to choose. Plus you'll find plenty of options to create something just for you. But if you need something unique, ProTech is able to do fully custom variations.

PROTECH

CLASS 8 TO MEDIUM - DUTY

WESTERN STAR TRUCK
ProTech Three-compartment enclosure, Deck, Fenders, Steps and Tool Boxes

PROTECH CLASS-8 CAB RACKS AND ENCLOSURES

ProTech sets a higher industry standard for cab racks with continual-seam weldments that virtually eliminate moisture trapping, cracking and fatigue.

Tubes are mitered and joined with TIG welds that are hand-cleaned and buffed

- 6061 window tubes
- Weld residue is removed and welds buffed
- Two 14-position locking chain hangers
- Locking center-mount toolbox
- Two chain trays
- Extruded I-beam uprights and legs form the support structure

HEPT-TUBE CONSTRUCTION

Aluminum hept-tube construction, with no bends, delivers the equivalent deflection strength of steel with significant weight savings and durability. The tube panel structure is welded to cab rack legs.

SHOWN: PN10-1003-592

STANDARD CAB RACK WITH INSTALLED OPTIONS

The standard unit is 65" H x 70"W and includes a window (10-5000), two locking chain hangers (10-5903), two chain trays (10-3800), and a locking center mount toolbox (20-2401). The units can be customized to fit any need.

Structural panels are 5052 marine grade aluminum and are resistant to corrosion especially salt-water atmosphere

Robust, durable continuous welds join the structural rib aluminum panel to ProTech® hept-tubes

GROOVE™ DRAWER MODULE

KEY POINTS

- Gloved hands have plenty of room to access the drawer's trigger release
- Drawer heights from 2" to 7"
- Drawer widths up to 48" and depths to 28" with 100% extension with 250-pound rated load drawer slides

- Corner welds keep the drawer stable.
- Drawer catch hooks are high-wear zinc alloy, not plastic.

STORAGE BOX DRAWER INSERTS

GROOVE™

Our design allows drawer heights as low as 2" that allow gloved fingers to trigger the latch release. The drawer handles are recessed flush with the cabinet housing to eliminate snagging clothes or equipment.

Slides have hardened steel balls that ride in steel channels. With the industrial-grade Groove drawer module, the drawer handle stays put and the ProTech proprietary design trigger release does the work.

Groove drawer modules come with a 5-year limited warranty.

PROTECH PICKUP TOOLBOXES

Keep the weather out and the tools in. Dense, steel-grip neoprene bulb weather seals. Full-length, load-bearing bottom edge welds won't crack under pressure.

NEOPRENE BULB WEATHERPROOF SEALS

CAM-LOCK LINKAGE ARM

Locks-out both handles for security or allows single-handed opening and closing

KEY POINT

The deflection point of ProTech 0.125" 5052 marine grade aluminum is within 10% of 14 GA cold rolled steel. Essentially, it is comparable to steel in strength yet weighs 33% less.

FULL LID-LENGTH STAINLESS PIANO HINGE

Weight bearing and attached with self-piercing rivets that retain lid alignment

LARGE TRAY WITH EASY SLIDING RUBBER GLIDERS

SHOWN: 54-822

CROSS-BODY BOX Smooth, Buffed Aluminum Lid

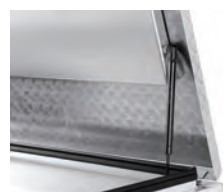

VISIBLE WELDS ARE FULL-LENGTH TIG SEAM WELDS

Double-tuck lid hinge mounting eliminates water collection entry points to keep box dry

ZERO CLEARANCE LID OPENING

Allows flush installation in truck box

LID STIFFENER

Adds strength, keeps lid square and warp-free

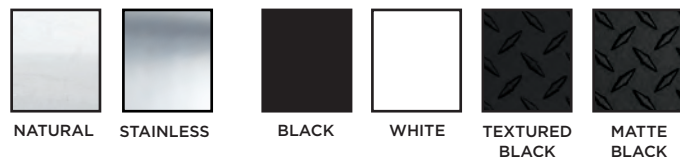

POWERFUL GAS SHOCKS

Lift lid completely open

LOUVERS AND DIAMOND PLATE, 24" LEGS

ProTech pickup truck cab racks are the robust, light truck version of the cab racks that you see on the heavy duty, class-8 rigs on highways across the country — or the off-road logging trucks in the Northwest. We weld panels flush to our own heptagonal tube design, to give you a strong, integrated structure with multiple tie-down possibilities. And durable, long-life performance.

PICKUP CAB RACKS NOW FOUR WAYS:

- With Amplimesh window and diamond plate
- With Louver window and diamond plate
- With round aluminum tube window and diamond plate
- Open center window cutout and diamond plate panel

Build To Spec helps our customers create purpose-built solutions for hard-working trucks, from small pickups to class-8 vocational trucks, tractor/trailers — even for UTVs. Typical products include flatbeds, storage boxes, toolboxes, drawer modules, decks, racks, bulkheads and baskets. BTS let's you optimize — and standardize — components for your required use.

PROTECH
BUILD TO SPEC™ PROGRAM

PROTECH BUILDS TO YOUR SPECIFICATIONS

When standard catalog products aren't what you need for your business, take advantage of the ProTech Build To Spec Program. From one-off special projects as diverse as brushfire trucks to beekeepers, ProTech is ready to execute the next idea. Take a look:

WILDLANDS FIRE TRUCK

YAKIMA FIRE DEPARTMENT

PROJECT GOAL:

Increase efficiency in fighting wildland fires.

Based on the ProTech flatbed, a transverse hose bay has through access from either side for hard suction hose and hot stick storage. A custom underride also housed the hose-fitting box with a T-handle. Special cabinetry was designed for hose hangers and other fire tools. Positive control T-locks permit one-handed rapid access for gloved hands. All cabinetry is in a custom color.

FLATWORK CONTRACTOR TRUCK

PARKER CONCRETE

PROJECT GOAL:

Standardize an up-fit package to meet field and operational needs for the fleet.

Built on the ProTech flatbed, the ProTech-designed material rack unbolts to allow access for truck engine maintenance. The rack also has special rack strap and securement placement based on worker access requirements. A special access bracket accommodates a longer underbody box install. Perforated locking toolboxes permit tool washing without tool removal.

HATCHERY FISH TRANSPORT TRUCK

EAST FORK STATE FISH HATCHERY

PROJECT GOAL:

Flatbed body capable of carrying large tank

The ProTech flatbed was designed with structural members 6 inches on center. To facilitate tank fish transfer, safety-grate catwalks are fabricated to raise 90° and supporting gussets are pulled from the bed rail storage position. When finished, side support gussets slide back into the side rail and the catwalk folds against the rail.
